

Hot Rod Force

Six items are in a line. The item you would like to force can be in either position 3 or 4 as you count left to right. But for this explanation we'll assume it is in the position 3 as shown below with the X.

• • X • • •

- Ask the spectator to call out a number 1 to 6.
- If the spectator calls out 1, spell O N E from the left and you land on the X.
- If the spectator calls out 2, spell T W O from the left and you land on the X.
- If the spectator calls out 3, count 1, 2, 3 from the left and you land on the X.
- If the spectator calls out 4, count 1 2 3 4 from the right and you land on the X.
- If the spectator calls out 5, spell F I V E from the right and you land on the X.
- If the spectator calls out 6, spell S I X from the left and you land on the X.
